

Serving Ice-Cream Guidelines

Wipe the pack of ice-cream mix with a sanitised cloth before opening. Open the pack along the perforation with sanitised utensils or tear as appropriate

Ensure that hands are washed and gloves are worn when serving ice-cream and where 2 metre distance cannot be achieved face masks/visors are advised

Keep hair clean and neat, all cuts and grazes must always be covered when serving customers

Ensure that all utensils/machine is wiped down regularly

Do not smoke, consume food, chew gum, lick your fingers, cough or sneeze where ice-cream is being prepared or served

When empty cones are on display they should be covered at all times
